Elle Mantle's lust for power has grown exponentially over the centuries and she will stop at nothing to control the master crystal underneath Magtcentrum. Recruiting elements from the lower realms she has finally amassed an army that might be large enough to become such a threat. Once Elle controls the master crystal she will use block the flow of energy to earth, keeping it for herself and raising her to godlike ability. It is up to Suuri Kuningatar and the other 11 crystal leaders to stop Elle from succeeding.
